## PROFESSIONAL SUMMARY

Passionate Software Engineer with 3+ years of experience specializing in Python, Flask, and relational databases. Proven track record of designing REST APIs, developing microservices with Docker, and collaborating in fast-paced Agile environments. Strong problem solving and communication skills.

## TECHNICAL SKILLS

* Programming Languages: Python, JavaScript, SQL, HTML, CSS
* Web & Frameworks: Flask, Django, React, Bootstrap, REST API
* Databases: PostgreSQL, SQLite, Redis
* DevOps & Tools: Git, GitHub, Docker, Linux, CI/CD, Unit Testing, Pytest
* Soft Skills: Problem Solving, Teamwork, Communication, Time Management

## PROFESSIONAL EXPERIENCE

Software Engineer | CloudScale Technologies (2022 - Present)
- Engineered high-throughput REST APIs using Python and Flask, reducing latency by 35%.
- Implemented caching with Redis and optimized queries for PostgreSQL databases.
- Containerized backend services with Docker and automated testing via Git and CI/CD.
- Participated in Agile sprint planning, daily standups, and peer code reviews.

Junior Developer | DataPulse Solutions (2020 - 2022)
- Built interactive frontend features using JavaScript, React, and Bootstrap.
- Wrote automated test suites using Pytest, improving code coverage to 88%.
- Demonstrated consistent teamwork, communication, and adaptability.

## EDUCATION

Bachelor of Science in Computer Science | State University (2016 - 2020)
